Professional Summary

B.Tech Computer Science student (graduating April 2027) targeting data analyst and data science roles. Skilled in Python, SQL, Excel, Power BI, Pandas and Scikit-learn. Built a solo PyTorch road-segmentation project on satellite imagery, completed an AI/ML virtual internship, and is an AWS Certified Cloud Practitioner.

Skills

Languages	Python, SQL, Data Structures and Algorithms
Analytics & BI	Power BI, Microsoft Excel (PivotTables, Lookup Functions), Tableau, Pandas, NumPy, Matplotlib, Seaborn
Machine Learning	Scikit-learn, PyTorch, Statistics, Probability, Linear Algebra
Tools	Jupyter Notebook, Google Colab, VS Code, Git, GitHub

Projects

Road Network Extraction from Satellite Imagery — Final-Year Project | Ongoing
Python, PyTorch, ResNet, OpenStreetMap

- Building a ResNet-based segmentation model in PyTorch to classify road vs non-road pixels in Google Earth imagery (solo project).
- Preprocessed imagery (resizing, normalisation) and used OpenStreetMap road data as training labels.
- Evaluating on held-out tiles using IoU and F1 for the road class.

Internship
