EXAM: CIS - Data Foundations (CMDB & CSDM)

This report shows your exam result and the percentage of items in each section you answered correctly. Your exam result is conditional, meaning your results are preliminary and may be updated upon final review. We will contact you by email if any changes are made to your exam result.

EXAM RESULT: CONGRATULATIONS, YOU HAVE PASSED!

TEST DOMAINS:	PERCENT CORRECT:
Configuration	100%
Ingest	100%
Govern	78%
Insight	93%
CSDM Fundamentals	75%

Understanding Your Results:

Each question on the exam is worth one point. Your total score is compared to a predetermined cut score - this score is not publicly shared and is not always 70% - to determine a pass or fail outcome. The section percentages show how you performed in each domain, but they do not determine your overall result, should not be averaged, and do not indicate expertise.

Keeping Your Certification Active:

To stay certified, you will need to complete a short maintenance exam each year and pay a yearly maintenance fee. You can find all the details in Credentialing Program Guide.
